

The 2011 LONGHAUL BOMBERS Powered By HOMERUN MONKEY kicks off in Miami May 22nd.

Natalie Kane with Softball -360 is proud to announce Homerun Monkey as the official Powered by partner of the 2011 stadium power tour,

Three teams shake things up with new faces as the competition heats up on the Stadium Power Tour, First off last year's champion, Chris Larsen of Team DeMarini will have a new partner- Kevin Filby- A BIG lefty that can bust it with the best. A gutsy move leaving Geno Buck on the porch as he has been on the winning manufacturer cup championship team each of the last three seasons, twice with Miken and last year with Team Demarini.

With two other new faces on tour this year, veteran lefty Tim Cocco, who owns many homerun derby titles at Disney, will join JD Genter and hit for Hank Basset's team TPS. Rookie John Gilmore will be joining long ball hitter Jeff Hall for team East Coast Athletics.

Team Easton will once again have the popular duo that make the Power Tour finals every year... Brett Helmer and Brian Wegman. Worth is coming back with BJ Fulk and last year's rookie that hit the some of the longest balls on the tour Greg Connell. With the first year jitters off the list will Connell be the man to beat ?

Miken's two time Champion Denny Crine will be back again looking to regain his crown hitting with lefty Jeremy Isenhower. Each year the competition seems to get stronger on the tour and with this year's star studded line up look for 2011 to be awesome on a great stage at the LA Dodgers, the third ranked park in America with average attendance of 43,979 last season
